

My comments relate to segments of a talk radio show aired by WDCG of Raleigh NC(G105) on September 22-23. The segments, during which DJs and callers shared tales/suggestions of how to run cyclists off the road and statements by one of the DJs (a Bob Dumas) that he intended to put old bottles in his car for use in throwing at cyclists. Written complaints to ClearChannel Mgmt. drew replies that admitted no wrong-doing.
